DRAFT HEALTH AND WELLBEING STRATEGY

EXECUTIVE SUMMARY:

One of the main responsibilities of the Kingston Health and Wellbeing Board is to oversee the production of the local Health and Wellbeing Strategy (H&WBS). The strategy will be a crucial enabler of the new system, important for commissioners, providers, service users and the wider community. It (together with the Joint Strategic Needs Assessment) forms the basis for local decisions that drive service change such as investment and disinvestment in services according to local needs. The guidance suggests that the H&WBS should prioritise the issues requiring the greatest attention so as to avoid the pitfalls of trying to take action on everything at once. The strategy should focus on key issues that will make the biggest difference and identify what can be done to address them and what outcomes need to be achieved.

A seminar was held for Kingston H&WBB members in April 2012 and agreed four key themes for the strategy:

- Mental health
- Older people and people with long term conditions
- Addressing the needs of socially excluded and disadvantaged groups
- Children and Young People

The attached strategy details the four agreed themes, provides an overview of the Kingston population and sets out the principles that will guide the actions of the Health and Well Being Board.

The strategy is being brought to the KCCG Governing Body as part of the engagement process that is currently being undertaken.
**KEY SECTIONS FOR PARTICULAR NOTE:**

Section 3 – Principles
Section 4 – Key themes

**RECOMMENDATIONS:**

The Governing body is requested to discuss and comment on the draft strategy

**RISKS IDENTIFIED:**

As the H&WBS will form the basis for future commissioning decisions, the document must be both robust and signed up to by all local commissioners.

**FINANCIAL IMPLICATIONS:**

Commissioning decisions that will be taken based on the strategy will have a range of financial implications.

**NATIONAL DOMAINS - TOWARDS AUTHORISATION:**

All papers to the Governing Body are assumed to be evidence towards authorisation.

Please indicate below all the domains which the paper provides evidence for

- Clinical focus adding value
- Patient, carer, community engagement
- **Planning and QIPP delivery**
- Corporate and clinical governance incl. non financial risk management
- Finance incl. financial risk management
- **Collaborative or joint commissioning, commissioning support**
- Leadership

**EQUALITY IMPACT ASSESSMENT:**

Not undertaken

**PRIVACY IMPACT ASSESSMENT:**

Not undertaken

**KINGSTON CCG MISSION & VALUES**

We are passionate about your health, compassionate about your care

Our task is to:

- help you stay as healthy as possible
- support you in looking after yourself when you are well and when you are not
- make sure the right services are available if you become unwell, and for those services to be safe, effective and provide the good experience you deserve
- listen to you, involve you and be influenced by you
- work with you to continuously improve:
  - the health and wellbeing of people in Kingston
  - the support that’s available to help people look after themselves
  - the quality of local health services
- work with you to reduce inequalities in health across Kingston
- become recognised and respected as the leader of the health care system in Kingston

We value:

- healthier lives for people in Kingston
- getting the best possible health improvement and health care for people in Kingston
- health services for local people, shaped by local people
- you being able to say, I’m heard, I’m healthier, I’m cared for
We plan to achieve this by:
- targeting the causes of ill health and premature death
- improving the quality, safety and responsiveness of services
- ensuring good quality health services are available and accessible in a timely way
- developing services across health and social care

We will measure how well we do by:
- your feedback on the services you use
- the improvement in health and life expectancy across Kingston
- the reduction in the health gap between affluent and more disadvantaged areas and people
