Kingston Clinical Commissioning Group (Kingston CCG) is responsible for commissioning health services for people living in Kingston and the surrounding area who are registered with a Kingston GP, and non registered patients in the Kingston area.

**Kingston CCG**

**Mission and values**

Kingston Clinical Commissioning Group (Kingston CCG) is responsible for commissioning health services for people living in Kingston and the surrounding area who are registered with a Kingston GP, and non registered patients in the Kingston area.

**We are passionate about your health, compassionate about your care**

**Our task is to:**

- help you stay as healthy as possible
- support you in looking after yourself when you are well and when you are not
- make sure the right services are available if you become unwell, and for those services to be safe, effective and provide the good experience you deserve
- listen to you, involve you and be influenced by you
- work with you to continuously improve:
  - the health and wellbeing of people in Kingston
  - the support that’s available to help people look after themselves
  - the quality of local health services
- work with you to reduce inequalities in health across Kingston
- become recognised and respected as the leader of the health care system in Kingston

**We value:**

- healthier lives for people in Kingston
- getting the best possible health improvement and health care for people in Kingston
- health services for local people, shaped by local people
- you being able to say, I’m heard, I’m healthier, I’m cared for
We plan to achieve this by:

- targeting the causes of ill health and premature death
- improving the quality, safety and responsiveness of services
- ensuring good quality health services are available and accessible in a timely way
- developing services across health and social care

We will measure how well we do by:

- your feedback on the services you use
- the improvement in health and life expectancy across Kingston
- the reduction in the health gap between affluent and more disadvantaged areas and people
